

Get ready to S-T-R-E-T-C-H your mind! What is a black hole? Where do they come from? How were they discovered? Can we visit one? Carolyn Cinami DeCristofano takes readers on a ride through the galaxies (ours, and others), answering these questions and many more about the phenomenon known as a black hole. In lively and often humorous text, the book starts off with a thorough explanation of gravity and the role it plays in the formation of black holes. Paintings by Michael Carroll, coupled with real telescopic images, help readers visualize the facts and ideas presented in the text, such as how light bends, and what a supernova looks like. A BLACK HOLE IS NOT A HOLE is an excellent introduction to an extremely complex scientific concept. Back matter includes a timeline which sums up important findings discussed throughout, while the glossary and index provide a quick point of reference for readers. Children and adults alike will learn a ton of spacey facts in this far-out book that's sure to excite even the youngest of astrophiles.

Twilight, Les Stupra (French Edition), Contractor and Client Relations to Assure Process Safety, What Do Authors Do?, God Will Make a Way Personal Discovery Guide: What to Do When You Dont Know What to Do, Beginners Guide to Programming the PIC24/dsPIC33: Using the Microstick and Microchip C Compiler for PIC24 and dsPIC33 (Volume 1), Great Escapes Asia: Updated Edition, simplybariatrics: The ultimate guide to weight loss surgery: All you need to know regarding weight loss surgery,

Black holes are not really holes at all. They are the opposite of empty! Black holes have the most matter stuffed into the least space of any objects in the universe. A Black Hole Is Not a Hole has ratings and reviews. Samuel said: It's not the only -- or even the primary -- criterion that I use when evaluating.

No, black hole is not a hole, it is 3-dimensional sphere. What you call a hole? When you fall in hole you will come out from other side but this thing not happen . What is a black hole? Where are they? How do you find one? In easy-to-follow terms, a complicated astronomical concept is explained for. If a black hole is not a hole, then what is it? Readers will find out what black holes are, what causes them, and how scientists first discovered them. They'll also. A black 'hole' is formed when a star collapses on it self, which I of a black 'hole' surely the end result would be a 'SPHERE' not a black 'hole'. If a black hole is not a hole, then what is it? Where do black holes come from? How were they discovered? Can we visit one? Take a ride through the galaxies. First, the issue of distance in space is discussed, so that young readers will be assured that black holes are not a threat to the Earth or solar. By Stuart Clark. FASCINATING, bamboozling, vaguely terrifying: black holes are the love-to-hate monsters of the universe. These insatiable.
