

Chief Superintendent Robert DeClercq has faced a horde of psychos in his time. But never one as coldly diabolical as Mephisto. Mephisto sends his challenge to Special X from cyberspace. Somewhere out there lurks a hellish mastermind, a sadistic psychopath obsessed with the secret of Stonehenge. What the devil is Stonehenge? Through two million dark nights that puzzle has baffled mankind. Mephisto suspects the answer lies in the Highland Hoard - a mythic cache hidden by barbarian raiders on Hadrians Wall - which reveals what must be done to save mankind from itself. Backed by Donella, a tartan-clad femme fatale, and a cult of modern Druids embroiled in human sacrifice, Mephisto uses DeClercq as a pawn to find the ancient treasure, while Special X adopts 21st century forensics to keep the madman from unleashing hell on Earth. The answer to the riddle of Stonehenge? Burnt bones. * * * Top cop Detective Inspector Kim Rossmo had only one condition when asked to be a character in BURNT BONES. I asked not to be mutilated, jokes the psycho-hunter. Rossmo is a Slade fan, partly because the books revel in a kind of ambitiously macabre crime that is a cut above the sad, grim routine a police officer sees. Theyre really interesting reads, says the cybercop. - The Canadian Press BURNT BONES introduces the psycho to end all psychos. Mephisto makes Hannibal Lecter seem like an Oxford don with slightly unorthodox culinary tastes. - The Vancouver Sun If you like your murders gory and in bulk, this is the series for you. Its up to Special X and real-life geographic profiler Detective Inspector Kim Rossmo to unravel the web of a millenarian cult gone mad. Slade writes the kind of stuff of which nightmares are made. - The Globe and Mail Slade villains are among the most twisted, evil creations to adorn the printed page. Because he works closely with police officers to ensure that he uses state-of-the-art forensic techniques, Slade writes cop thrillers that real cops read. - Cemetery Dance BURNT BONES is a very original thriller that should appeal to anyone looking for a change from the usual stuff that litters bookstore shelves. - The Halifax Chronicle-Herald Mephistos female partner, Donella, is a sexual Amazon with the tenderness of a cobra. Mephistos demonic Druids are impersonal killing machines. The careful research into the mystery of Stonehenge is well-handled. The job of a criminal lawyer is good training for writing complex, detailed stories. If you like fantastic characters in a setting of blood and human barbecues, you won't be disappointed. - Island Tides * * * Criminal lawyer Michael Slade has acted in over a hundred murder cases. He specializes in the law of insanity, and argued the last hanging appeal in the Supreme Court. Slade was guest of honor at both the Bloody Words Crime Convention in 2011 and the World Horror Convention in 2001. He teaches How to Write a Mystery Thriller at Simon Fraser University. Slade was guest speaker at the international Police Leadership Conference and several RCMP regimental dinners. Reader's Digest says: The Slade books have developed a strong following among police officers because of their strict adherence to proper police procedure.
