

Read the critically acclaimed non-fiction comic! Troy Brownfield of NEWSARAMA raved about: ...its for books like this one that I love doing this column... a damn fine example of what independent comic really means. The fact that its entertaining, informative and occasionally gut-bustingly funny is all icing... Shay Totten in the Vermont Guardian, said: Using rough-edged, often comical, ink drawings, Luoma guides readers from Jesus's original teachings to the rise of an institutional church and eventually to the fundamentalist movement, which has become the dominant sect in the United States and influences both culture and politics. Rather than page after page of scholarly dissertation, readers find ink-drawn images of Christ and Pat Robertson, alongside biblical quotations and those from Robertson. This contrasting approach underscores Luoma's core argument that what Robertson says is based on Christ's teachings is not quite accurate. It also makes for a compelling read. For those who believe Christianity is more than the 700 Club and calls for the assassination of world leaders, Luoma's work will tickle the mind, and the funny bone. Steven Grant weighed in on *Holy Shit:* in his CBR column *Permanent Damage:* ...a surprisingly respectful (to Christ, anyway) dissertation on how Christianity got twisted throughout history from the original teachings to the inane blather of televangelists like Robertson. It briskly covers a range of topics like unpleasant discoveries in Biblical scholarship, the latter day misguided origins of Christian fundamentalism, religious right wing misinterpretation of the Constitution and its historical basis, and suggestions for finding paths back to the real Jesus. And he backs up his argument; its not simply a screed. The arts iffy at best but the books pretty impressive. And now available for Kindle!
