

Ayden and Anthony have been best friends forever. They did everything together and grew up around The Last Hangman MC. They've stuck together through the good and the bad, realizing that what they feel for each other is so much more than friendship. They confess their feelings and start dating but their happiness is short lived. Ayden's life is changed in an instant...One minute she thinks everything is perfect, that she found her happily ever after and the next minute her whole world comes crashing down, forcing her to leave New Orleans. She starts a new life in New York but realize its not enough. She needs to go back to her roots, even if it means going back where the MC is. Anthony let Ayden leave six years ago. Hes always regretted it and seeing her again confirms how much he wants her and needs her in his life. Hell do all he can to have Ayden back and get the truth about why she took off years ago. What happens when her past catches up with her and starts messing with her life again? Will she give into the fear of what took place that night might occur again? Or will she trust Anthony and let him help her get through it? What happens when she finds out who is behind all the bad things she went through in the past? Will she be strong enough to handle the truth? Or will it destroy her beyond repair? ***This book contains adult material intended for mature readers only***
