

Lovers of historical fiction could hardly do better than Diana Quincy's *Spy Fall*, proclaims Fresh Fiction. In this uniquely fresh and innovative Regency romance, a fearless French parachutist lands on top of a wicked rogue who endangers her mission and her heart. Mari Lamarre is gaining fame on both sides of the Channel for her daring aeronautic endeavors, but she hasn't come to Dorset to showcase her talents. Rather, she's been tasked with recovering sensitive information that may have fallen into the hands of the Marquess of Aldridge. It's the riskiest adventure of her career and it begins with a crash landing. Her fall is broken by the Marquess's very own son, Cosmo, who's clearly a rake and a drunk, not to mention a liability. So why does Mari find him so utterly alluring? When he first spots the vision of loveliness in the sky, Lord Cosmo Dunsmore surmises he's imbibed one drop too many, and an angel has come to fetch him. Little does he know that this female daredevil will make him feel more alive than ever before. But when their torrid affair takes a shocking turn, Cosmo must choose where his loyalties lie: with his respectable father or with the captivating beauty whose fierce passion makes him feel like a new man. Praise for *Spy Fall* There's a gonzo style to this book that I just adore. Plus, I love the twist on the Regency romance. I've read an awful lot of Regency romances and I've yet to read one in which a pants-wearing female French spy parachutes onto a drunk duke who thinks she's an angel. It takes meet cute to a whole new level. Smart Bitches, Trashy Books Includes a special message from the editor, as well as an excerpt from another Loveswept title.
