

Barely a month in living in New York City, young and innocent Madeline is just starting to ease into the adult life. Of course, this would be easier if she could only get her mind off her rough and yet gorgeous boss Bale... But there's something about tonight; something about the hot, pulsing, writhing mass on the dance floor, something about wearing her slinky new black dress while she pours drinks behind the bar, and certainly something about the way Bale and his four powerful, rugged-looking friends can't keep their eerily luminescent, icy-blue eyes off of her... When Bale steps in violently "animalistically, even - to save her from a would-be attacker, Maddie suddenly realizes that her boss and his four friends are actually alpha werewolf shifters! And tonight's a full moon, and denied the hunt and the bloodlust, Bale and his shifter pack turn to an altogether different way to quell their dark hunger. They won't be stopped, and they won't be denied, and Madeline soon finds herself becoming a woman with the whole pack as she's taken hard, fast, and without protection by ALL FIVE alphas!
