

A brief and brilliant satire of magazine hacks and fashionistas, *The Sweet Smell of Psychosis* shows Will Self - a writer acclaimed as a masterly prose-maker by London's Sunday Times - at the top of his form. It looks as if it's going to be quite a Christmas for Richard Hermes, powdered with cocaine and whining with the white noise of urban derangement. Not so much enfolded as trapped in the bosom of the most venal media clique in London, Richard is losing it on all fronts: he's losing his heart to Ursula Bentley, a nubile and vacuous magazine columnist; he's in danger of losing his job at the pretentious listings magazine *Rendezvous*; he's losing his mind courtesy of Colombia's chief illegal export; and, worst of all, he's losing his soul ... to Bell. Bell is a newspaper columnist, radio host, television personality - but more than that, he is the kingpin guiding the ship of media scandal through the lower depths. From his headquarters in the Sealink Club he pulls the strings that control the disseminators of drek and gatherers of glib. And he has had Ursula Bentley and just about everyone else, female and male. As Richard pursues the Jicki perfume wafting from Ursula, he is in fact being drawn into a much more sinister web. Murky, paranoid, and hilarious, *The Sweet Smell of Psychosis* is Will Self at his best.
